7. Drainage, Flooding and Moisture

Due to extremely heavy rains, water entered the terrace level of house. Aquaguard waterproofing company installed waterproofing system in June, 2010, and provided a warranty on work for life of the structure.

Also, over time the stone wall along the stream in back had deteriorated in the area below the foot bridge. The stream bed was cleaned out and the wall re-built for better protection to route the water down-stream. A stone wall was added from the back of the house to the drainage stream for redirecting surface water.

12. Other Matters

(a) Home inspection on 4-29-2010, revealed water issue in terrace level. See above for corrective action taken.
